

Admission to Doctoral Studies at the Faculty of Pharmacy

Call for Applications to enroll in academic year 2026/2027

University of Belgrade – Faculty of Pharmacy

issues the Call for Applications to enrol students in the academic year 2026/27

for Doctoral Academic Studies in Pharmaceutical Sciences

In the 2026/2027 academic year, **10 self-funded** applicants will be admitted to Doctoral Academic Studies of Pharmaceutical Sciences in English language: comprising **7 regular self-funded students** and **3 self-funded students** enrolled through the **HORIZON-MSCA-2025-DN-01** project entitled *Bridging Regulatory Science and Innovation for Dermal Generics and Advanced Skin Therapies (GuideSkin)* and the **HORIZON-MSCA-2024-DN-01** project entitled *Advancing in the Challenge of Improving Lymphoma and Leukemia Survival*.

The candidates applying to enroll in doctoral studies should meet the following requirements:

- completed master academic studies in accordance with the Rulebook of the University of Belgrade concerning admission to the third degree of academic studies, or completed integrated academic studies i.e. Faculty of Pharmacy and other Faculties as specified by the Study Programmeme, with at least 300 ECTS credits and overall average mark of at least 8 (eight),
- realised scientific papers in line with the Rulebook of the University. For candidates with overall general mark below 8 (eight), two papers published in the SCI List journals (with impact factor greater than zero) in which the candidate is one of the first three authors
- completed higher education lasting at least eight semesters under the syllabus and curriculum in effect before the Law on Higher Education came into force, with average mark during the studies of at least 8.00
- foreign students are admitted in line with the general requirements referred to in the Call for Applications published by the University of Belgrade
- the additional requirement for ranking the candidates: average mark achieved, interview, study duration and average mark achieved in the subjects relevant for the module.

A person who has started doctoral studies in the same or related scientific field at another higher education institution may be enrolled in the study program of doctoral academic studies, under conditions determined by the general act of the University. Such candidate can only be enrolled as a self-financing student and does not fall into the approved number of students for a particular study program. Such candidate must fulfill the condition for enrollment in the study program and may be awarded a maximum of 90 ESPB points.

When it comes to persons who submit a foreign higher education document proving that they have mastered a part of the study program at a foreign higher education institution in order to apply for enrollment in doctoral academic study programs, in accordance with Article 96. of

the Statute of the University of Belgrade (Gazette of the University of Belgrade), No. 201/2018, 207/2019, 213/2020, 214/2020, 217/2020, 230/2021, 232/2022, 233/2022, 236/2022 and 241/2022), it is necessary that the recognition procedure has been initiated no later than June 1, 2026, in order to determine the right to enrollment on the basis mentioned.

A student of another university / other higher educational institution can not enroll at the Faculty if he / she is enrolled in another study program at a higher education institution with a remaining 60 or fewer ECTS points.

This candidate submits a request for enrollment to the Faculty within the deadline specified in this contest. If a person has begun doctoral studies abroad, the candidate submits a request for recognition of a foreign public document to the University of Belgrade.

The duration of the studies of such candidates is the twice a number of school years remained for the realization of the enrolled study program, with the possibility of extending the deadline for completion of studies upon a personal request, in accordance with the Statute of the University.

Prerequisite for enrollment in a study program conducted in English is proof of knowledge of English at a higher intermediate level of competence = B2 - Cambridge Advanced Certificate in English (CAE) or IELTS (International English Language Testing System) or completed high school in English language.

Prior to application, applicants – foreign nationals shall present to the Faculty the following evidence:

1. certificate that confirms knowledge of English language
2. application form (available at the Faculty Students Office)
3. original birth certificate, translated by certified court interpreter
4. certificate on residence permitted – Ministry of Interior in Belgrade, Division for Foreigners, address: 35 Savska, Belgrade
5. when applying, applicants – foreign nationals shall submit the certificate confirming that they have health insurance – Division for Foreign Insurance, Nemanjina 30, Belgrade

Candidates who have completed previous education or part of education abroad may enroll in the Study Programme provided his/her acquired foreign higher education document which is recognised in accordance with the Law and the relevant General Act of the University. In case the recognition process has not been completed, such candidates are to enclose the certificate confirming that the procedure is in progress to their application.

For candidates who have completed the previous level of the study abroad, it is necessary to submit the decision of the Rector on the recognition of foreign public higher education documents when enrolling. Candidates holding foreign higher education documents may apply for the enrolment in doctoral academic studies with a decision on the recognition of a foreign higher education diploma for the continuation of studies at the University, and with the possession of a certificate of the initiated recognition procedure for the continuation of studies at the University; candidates with a certificate can only obtain a conditional enrolment in the study program of doctoral academic studies until the final solution is obtained. These candidates sign a statement that they accept a conditional entry until the decision is issued,

and if there are obstacles for the issuance of a decision or it is negative, these candidates accept that they will not be able to complete the study program. Candidates who possess a foreign higher education certificate must start the **recognition process for continuing education by September 18th, 2026 at the latest**. Foreign documents submitted after this deadline allow applying for enrollment only in the following school year. Detailed information on the procedure for the recognition of a foreign higher education qualification for the purpose of continuing education at the University of Belgrade can be found at the following link: [RECOGNITION – Univerzitet u Beogradu](#)

All candidates who completed the previous levels of education **not later than October 14th, 2026**, have the right to enroll in doctoral academic studies in the school academic year 2026/2027.

The Faculty is obliged to check the submitted higher education documents and if it finds that the document has not been issued in accordance with the applicable regulations, the candidate has no right to enroll.

If it is subsequently established that the document on the completion of the previous degree of studies has deficiencies, the procedure for cancelling the registration is conducted, in accordance with the Law.

Applicants who have a foreign higher education diploma submit a certificate confirming that the recognition procedure at the University has begun.

Candidates are granted the right to be enrolled if he/she is on the ranking list within the number determined by the Call for Applications.

When compiling the ranking list of candidates applying for enrollment in studies, the higher education institution first ranks candidates who are enrolling for the first time at that level of study and at that higher education institution, and then ranks the other candidates.

Candidates granted the right to be enrolled but failing to do so within the defined time period shall lose such right, and the next ranking candidate from the list will be enrolled instead.

Candidates applying to the Call shall decide on one of the thirteen areas of study as follows:

- Drug Analysis
- Bromatology
- Medical Biochemistry
- Social Pharmacy and Research in Pharmacy Practice
- Toxicology
- Pharmacology
- Pharmaceutical Chemistry
- Pharmacognosy
- Pharmacokinetics and Clinical Pharmacy
- Pharmaceutical Technology and Cosmetology
- Microbiology and Immunology
- Pathobiology
- Physiology

Drug Analysis:

Faculty of Pharmacy, Faculty of Medicine (study program: Pharmacy) and candidates who have completed study programs within the scientific field of chemistry and physical chemistry.

Bromatology:

Faculty of Pharmacy, Faculty of Medicine, Faculty of Chemistry, Faculty of Technology and Metallurgy (study program Biochemical Engineering and Biotechnology), Faculty of Agriculture (study program Food Technology). Candidates who have not graduated from the Faculty of Pharmacy or Medicine must take a differential exam. The differential exam is taken after application and submission of documents. The exam is prepared based on the Physiology subject card - selected chapters and the literature suggested in the card. The scope of the differential exam is 100 points. The exam will be considered passed if the candidate has at least 51% correct answers. After passing the exam, the candidate will be ranked within the ranking list according to the competition conditions.

Medical Biochemistry:

Faculty of Pharmacy, Faculty of Medicine (study program: Pharmacy, study program: Medicine and study program: Dental Medicine), Faculty of Veterinary Medicine, Faculty of Dentistry, Faculty of Chemistry (study program: Biochemistry). Candidates who have completed study programs within the scientific field of chemistry and biology must take a differential exam in the subject Medical Biochemistry. The differential exam is taken after application and submission of documents. The exam is prepared based on the Medical Biochemistry subject card (and teaching units) and the literature proposed in the card. The scope of the differential exam is 100 points. If the candidate has 51% correct answers, he will be ranked within the ranking list.

Pharmaceutical Technology and Cosmetology:

Pharmaceutical Technology: Faculty of Pharmacy (study program: Pharmacy), Faculty of Medicine (study program: Pharmacy), Faculty of Physical Chemistry, Faculty of Technology and Metallurgy (study programs: Biochemical Engineering and Biotechnology, Materials Engineering and Chemical Engineering), Faculty of Electrical Engineering (study program: Biomedical and Environmental Engineering). Candidates who have not graduated from the Faculty of Pharmacy take a differential exam. The differential exam is taken after applying and submitting documents. The exam is prepared based on the course card Pharmaceutical Technology 1, 2 and 3 (and teaching units) and the literature proposed in the card. The scope of the differential exam is 100 points. The exam will be considered passed if the candidate has at least 51% correct answers. After passing the exam, the candidate will be ranked within the ranking list according to the competition conditions. Cosmetology: Faculty of Pharmacy, Faculty of Medicine, Faculty of Dentistry, Faculty of Technology and Metallurgy.

Social Pharmacy and Research in Pharmacy Practice:

Faculty of Pharmacy, Faculty of Medicine (study program: Pharmacy, study program: Medicine and study program: Dental Medicine), Faculty of Veterinary Medicine and Faculty of Dentistry. Candidates who have not completed integrated academic studies in pharmacy

must take a differential exam. The differential exam is taken after application and submission of documents. The exam is prepared based on the Pharmacy Practice subject card and the literature proposed in the card. The scope of the differential exam is 100 points. The exam will be considered passed if the candidate has at least 51% of correct 3 answers. After passing the exam, the candidate will be ranked within the ranking list according to the competition conditions.

Toxicology:

Faculty of Medicine, Faculty of Pharmacy, Faculty of Dentistry, Faculty of Veterinary Medicine, Faculty of Biology, Faculty of Chemistry, Faculty of Technology and Metallurgy, Faculty of Agriculture.

Pharmacology:

Faculty of Pharmacy, Faculty of Medicine, Faculty of Veterinary Medicine, Faculty of Dentistry, Faculty of Biology.

Pharmaceutical Chemistry:

Faculty of Pharmacy, Faculty of Medicine (study program: Pharmacy and study program: Dental Medicine), Faculty of Chemistry, Faculty of Physical Chemistry, Faculty of Dentistry, Faculty of Veterinary Medicine, Faculty of Biology, Faculty of Technology and Metallurgy, Faculty of Agriculture, Faculty of Computer Sciences. Candidates who have not completed integrated academic studies in pharmacy must take a differential exam. The differential exam is taken after application and submission of documents. The exam is prepared based on the Pharmaceutical Chemistry 1 course card (and teaching units) and the literature proposed in the card. The scope of the differential exam is 100 points. The exam will be considered passed if the candidate has at least 51% of correct answers. After passing the exam, the candidate will be ranked within the ranking list according to the competition conditions.

Pharmacognosy:

Faculty of Pharmacy and Faculty of Medicine (study program: Pharmacy). Candidates who have graduated from the Faculty of Medicine (study program: Medicine and study program: Dental Medicine), Faculty of Dentistry, Faculty of Veterinary Medicine, Faculty of Biology, Faculty of Chemistry, Faculty of Agriculture (study programs related to dairy farming, viticulture, crop farming, vegetable growing and biotechnology), Faculty of Technology and Metallurgy and Faculty of Technology (study programs related to pharmaceutical engineering and biotechnology) must take a differential exam in the subject of Pharmacognosy. The differential exam is taken after application and submission of documents. The exam is prepared based on the Pharmacognosy subject card (and teaching units) and the literature proposed in the card. The scope of the differential exam is 100 points. The exam will be considered passed if the candidate has at least 51% correct answers. After passing the exam, the candidate will be ranked within the ranking list according to the competition conditions.

Pharmacokinetics and Clinical Pharmacy:

Faculty of Pharmacy, Faculty of Medicine (study program: Pharmacy and study program: Medicine).

Microbiology and Immunology:

Faculty of Pharmacy, Faculty of Medicine (study program: Pharmacy and study program: Medicine and study program: Dental Medicine), Faculty of Dentistry, Faculty of Biology, Faculty of Veterinary Medicine.

Pathobiology:

Faculty of Pharmacy, Faculty of Medicine, Faculty of Dentistry, Faculty of Biology.

Physiology:

Faculty of Pharmacy, Faculty of Medicine, Faculty of Veterinary Medicine, Faculty of Dentistry, Faculty of Biology.

When applying under the Call for Applications, the candidates have to present original documents, and photocopies of the following documents have to be enclosed to the application form (available at the Faculty Students Office):

- **copy of the Diploma and Diploma Supplement on previously completed degree of education (and in case he/she has no Diploma Supplement also the certificate on examinations passed),**
- **certificate on the knowledge of English language issued by an institution authorised to do so, and a copy of all the published papers if required for admission.**
- **proof of payment of the fee in the amount of 5,000.00 RSD for the purpose of application, paid in the Faculty account 840-32910845-13,**
- **A statement authorizing the Faculty and the University that the personal data provided by the candidate can be entered into an electronic database, and that these data can be used for the purpose of generating the necessary statistics, submitting the requested data to the Ministry of Education, Science and Technological Development without personal data, and will not be available to unauthorized persons,**
- **brief CV**

Documents are to be delivered in person, to the Faculty Students Office, in the period between 01th September 2026. to 01th October 2026. at 9 a.m. to 2 p.m. The applicants may get information on the general requirements under the University of Belgrade (Call for Applications) on the University of Belgrade webpage.

DEADLINES AND PROCEDURE OF SUBMITTING APPEAL

The preliminary ranking list will be announced on 13th October 2026. at 12 a.m. Applicant may submit an appeal to competent Commission of the Faculty on the regularity of the procedure established by the Competition as well as the ranking placement on the ranking list on 14th October 2026. between 9 a.m.-1 p.m and on 15th of October 2026. between 08,00 a.m. and 10,00 a.m.

Decision of the Commission based on the appeal will be announced on 15th of October 2026. at 11 a.m.

Submitting appeal to the Dean of the Faculty in the second degree procedure on the decision of the Commission will be on 15th of October 2026. from 11,00 a.m. to 2,30 p.m.

The decision of Dean will be announced on 15th of October 2026. at 3 p.m.

Final ranking list will be announced on the site of the Faculty of Pharmacy 15th of October 2026. at 3,30 p.m.

Enrollment of received candidates will be done at the 16th of October 2026. between 9 a.m. – 2 p.m.

All the changes will be published on the Faculty's website in a timely manner.

For more information, interested applicants may contact the Section for Teaching and Student Issues at the telephone numbers + 381 11 3951 362 and or visit the Faculty website: www.pharmacy.bg.ac.rs
