International Pharmacy Summer School

INTRODUCTION

International Pharmacy Summer School 2017 (IPSS 2017) is the fourth pharmacy summer school in Indonesia and an annual event organized by Faculty of Medicine and Health Sciences of Universitas Muhammadiyah Yogyakarta, Indonesia. It will be held on **July 31st - August 12th 2017** at the **Universitas Muhammadiyah Yogyakarta**. It is a unique summer school program combining the academic and student activities. It aims to make participants able to interact and work together with related professionals, get more information about “Exploring Herb-Based Cosmetic Product with IPE Learning method” and many interesting travel experiences as well as memorable Indonesian cultural learning.

IPSS 2017 has so much exciting activities, including **academic and non-academic**. The academic activities involve “Cosmetics Products of Pharmacy’s Innovation which are based on Herbs with Dermatology Interprofessional Education”. Participants will get lectures by experts and professionals. They also have other academic activities, such as tutorials, laboratory activities, Community Health Center visit, social works, and Herbal Company (B2P2TOOT) visit.

The non-academic activities involve visiting many cultural places in Yogyakarta, such as the Sultan Palace, Taman Sari Water Castle, Borobudur Temple, Prambanan Temple, Ramayana Ballet performances, and more. Participants will stay in the University Residence of Universitas Muhammadiyah Yogyakarta. By this way, they will be able to recognize Indonesian people and their cultures.

Best Regards,

Committee of IPSS 2017

INDONESIA AND YOGYAKARTA

Republic of Indonesia is a country in Southeast Asia, located on the equator and between the Asia and Australia continents and between the Pacific and Indian oceans. Indonesia, since it lies between two continents and two oceans, is also known as the Archipelago Islands. Consisting of 17,508 islands, Indonesia is the largest archipelago in the world that spreads from Sabang to Merauke. The country is passed by the equator line, making it has a tropical climate with two seasons; dry and rain season. The tropical climate makes Indonesia has one of the greatest biodiversity in the world, the second after Brazil. You can find some biodiversities, anything from rain forests, great lakes, long rivers, high mountains, amazing under-water corals, etc., in Indonesia. Each corner in Indonesia has a lot of exciting things.

Indonesia, with a population of 260 million people in 2010, is the fourth most populous nation and the most populous Muslim country in the world, although not officially an Islamic state. Jakarta is the Indonesian capital city. The borders of the country include Malaysia on Borneo Island, Papua New Guinea on Papua, and East Timor on Timor Island. Other neighboring countries include Singapore, Philippines, Australia, and the union territory Andaman and Nicobar Islands in India.

Indonesia, from Sabang to Merauke, consists of distinct ethnics, linguistics, and religious groups. Java is the largest tribe and most politically dominant. Indonesian national motto, “Unity in Diversity”, represents the country. Indonesia has 34 provinces, including Yogyakarta (or locally called Ngayogyakarta Hadiningrat). Yogyakarta is one of famous provinces in Indonesia, not only known well by local, but also international tourists because of its nature and culture.

Yogyakarta was founded by Prince Mangkubumi (Sultan Hamengku Buwono I) in 1755 as a result of Giyanti Agreement. It grew up into a city rich in Javanese cultures and arts. The centerpiece of the development of art and culture is the empire. A variety of classical Javanese arts, such as dances, songs, geguritans, gamelans, paintings, literatures, and carvings, were developed from the palace. Later, the arts become folklores. The unity of the community and artistic values is strong, making Yogyakarta never runs out of trained artists.

In addition to cultures, ancient architectural treasures, such as Water Castle, Sultan Palace, Pakualaman Palace, Prambanan Palace, and various Museums, also have their own magical things for the tourist, both local and international. These entire exciting things make Yogyakarta becomes the second primary regional tourism destination in Indonesia.

UNIVERSITAS MUHAMMADIYAH YOGYAKARTA

Universitas Muhammadiyah Yogyakarta (UMY) is a university in Yogyakarta, one of the most beautiful cultural cities in Indonesia. UMY is one of universities owned and managed by “Center of Muhammadiyah Council”, one of the religious mass organizations in Indonesia. UMY was founded on March, 26th, 1981. It has 7 major faculties, including Faculty of Islamic Religion, Faculty of Economy, Faculty of Law, Faculty of Social and Political Sciences, Faculty of Medicine and Health Sciences, Faculty of Agriculture, and Faculty of Engineering.

UMY offers a number of facilities for its students. The facilities include Knowledge Learning Center (KLC) Library coming with a lot of journal collections from PROQUEST and EBSCO, Center of Language Training of UMY having qualified English programs (e.g. English for Public Speaking, English for Learning Purpose, English for Paper Writing, and TOEFL Preparation), UMY First allowing you to connect with internet in a simple way with hotspot and Wi-Fi facilities, futsal, and jogging tract along university area.

Universitas Muhammadiyah Yogyakarta is one of the best private universities in Indonesia, according to Webometrics (July 2011). With its tagline “Muda Mendunia”, UMY is ready to be a qualified university to think globally and act locally.

International Pharmacy Summer School

IPSS PROGRAMS

EDUCATIONAL PROGRAM

A. COMMUNITY BASED

1. Herbal Company B2P2TOOT Tawangmangu Visit

The primary aim of this activity is to give knowledge about herbs and how to process them to be complementary medicines. B2P2TOOT/BPTO is an Indonesian official health department responsible in the development of herbal medicine. The participants will have a scientific tour, such as subtropical garden and aromatic garden.

2. Social Activity

The participants will give counseling about how to treat skin properly and how to choose the right cosmetics due to its safety to the woman in Nasyiatul „Aisyiyah, which is the same movement group as Muhammadiyah.

B. CAMPUS BASED

1. Tutorial

Tutorial is a small-group discussion. Each participant will gain one perception among other participants and lecturers. This discussion is based on a problem that had been lectured by tutors. The result of this discussion brings conceiving think about the issues in herbal medicine. This activity will invite some lecturers from The School of Pharmacy of Universitas Muhammadiyah Yogyakarta.

2. Lecture

The participants will have four main lectures brought by experts with the background of herbal cosmetics and dermatology.

3. Laboratory activity

Laboratory activity is where participants try to do the process of making cosmetic products by the students of School of Pharmacy of Universitas Muhammadiyah Yogyakarta.

4. Assessment

For all education programs, there will be an assessment process in the form of Multiple Choice Question (MCQ). The questions are from some of the materials that have been given in the stadium general. The test uses a computer-based test (CBT) system. Laboratory activity assessment is based on laboratory activity. Participants will give a presentation about skill laboratory material in front of the class.

NON EDUCATIONAL PROGRAM

1. Welcoming Ceremony

It is a welcoming ceremony for foreign students as an official student IPSS program. This event focuses on providing information about the IPSS activity interspersed with other events as the introduction of the Indonesian culture.

2. Traditional Session (dance class, painting batik, and music class)

Extra activities that facilitate participants to learn three of the Indonesian's cultures involving traditional dance, painting art called batik, and playing instruments from anywhere around Indonesia, either individual or in groups.

3. International Night

IPSS facilitates cultural exchange of each country of the participants through the introduction of traditional food. This event is designed to be a warm event and is expected to strengthen the relationship between participants and committees.

4. Tourism

This activity will provide you to visit some recreational places in Yogyakarta, such as Temple, Palace, Beach, and other interesting places.

5. Farewell Ceremony

It is a closing ceremony for IPSS participants. It is the top event of all IPSS activities that they have done, both educational and non-educational activities.

6. Places

IPSS has some interesting events, such as herbal center that have concern for tropical medicine, Faculty of Medicine and Health Science of Universitas Muhammadiyah Yogyakarta as a venue for campus-based events (lectures, tutorials, and lab activities), some of the recreation places representing Yogyakarta and Indonesia as one of ways to recognize the culture and also to avoid boredom in learning activities.

INTERPROFESSIONAL EDUCATION (IPE)

Interprofessional Education (IPE) is a process in which a group of students or healthcare professionals who have different professional backgrounds study together in a certain period, interacting as a primary objective, and to collaborate in promotive, preventive, curative, rehabilitative, and any other type of health services.

Through Interprofessional Education, various health professionals are expected to increase the ability of interprofessional and to give the ability in collaborating, improving the practice in order to complement each other, forming an action together to improve service and trigger changes; applying critical analysis to collaborative practice, improving outcomes for individuals, families, and society; responding fully to their needs, students can share their experiences and contribute to the progress and mutual understanding in the interprofessional learning in responding to questions, at conference and through professional and interprofessional literature.
