

Naziv uređaja Hettich Micro 200R centrifuga	Apparatus Hettich Micro 200R centrifuge
Proizvođač i model/The manufacturer and model Hettich (Germany), 200R, 2405	
Kratak opis metode Centrifugiranje sa hlađenjem	Short description of the method Centrifugation with cooling
Tehničke karakteristike Brzina centrifugiranja do 21382xg (15000 rpm), temperaturni opseg od -10 do +40°C, kapacitet do 30 tuba (1,5 / 2 mL)	Technical characteristics Speed up to 21382xg (15000 rpm), temperature range -10 to +40°C, capacity up to 30 tubes (1,5 / 2 mL)
Primena i tip uzorka Precipitacija/razdvajanje različitih supstanci/komponenti uzorka, Uzorci: rastvori, suspenzije, emulzije, biološki materijali	Application and sample type Precipitation/separation of different substances/components. Samples: solutions, suspensions, emulsions, biological materials
Osoba za kontakt / Contact person Sandra Vladimirov
